"The Dancing Girl," says Manager Frohman, will illustrate the fact that Henry Arthur Jones loves violent contrasts in his play. In them he thinks the strongest dramatic relief is to be found. In "The Dancing Girl" are two. There is in one scene a settlement of simple, plous quakers, living humbly in an obscure island home. Another scene shows a swell London drawing-room in the full blast of an extravagant social revel. The contrast, great in itself, is said to be accentuated in every way.

Miss Perulta Hudspeth is the name of a young English actress formerly a member of the Kendais' company, and last season of the Court Theatre, London, who comes to this country by the Bothnia to try her dramatic fortunes here. It is understood that there will be no duty upon her name.

A very handsome woman in a brougham on Broadway driving up to one of the dramatic exchanges yesterday attracted some attention. She had the airs of a queen—a Riaito queen—and was elaborately dressed. Her fingers were beringed in a most lavish manner. Was she astar? Was she some great public pet? Not a bit of it. She was a young woman who has one line to speak in "Fleurette" at the Standard Theatre. The hot weather was very disastrous in its

There was something rather pathetic to me ast night in the spectacle of the plucky little woman who wrote "Fleurette," the combo opera now running at the Standard Theatre, bravely conducting her orchestra, undis-turbed by the volleys of adverse criticism that have been showered upon her. Many a man would have relinquished the baton in disgust and have retired to tell how he was misunderstood, and how there was a gigantic conspiracy on foot to undermine his future Miss Emma R. The failure of "Figurette" is undoubted ly due to its libretto, which is atrocious.
